

What is VDOT University's Virtual Campus?

Simply put, VDOT University's Virtual Campus is the most convenient way for learners to access tools to ensure professional and personal development. It provides users:

- Access to VDOT's Extensive Course Catalog
- Multiple Ways to Learn
- Online Registration for classroom, web-based, hands-on learning courses
- Integrated Online Administration and Reporting
- Continuously Updated Courses and Resources
- Team Room Communities for Collaboration

Accessible 24 hours, 7 days and, 365 days per year from any Internet location

Convenience Without Compromise

Online courses are available 24/7 so you can study anytime, anywhere. Enjoy the benefits of a virtual campus without sacrificing quality of education.

Extensive Course Catalog

Search the extensive catalog, then register for classes. Course delivery includes: Classroom, e-learning, using video learning tools (CD, DVD, and tape) and outdoor equipment usage (MTA).

- More than 1300 courses
- Covering IT, business and professional development, and workplace safety

Just In Time Training

VDOT University's Virtual Campus delivers knowledge on-demand, with up-to-the-minute courses covering hundreds of today's hottest topics.

- Immediate training solutions to solve immediate business problems

My VU

Your personal page details your transcripts, mandatory classes and helps you to develop your personal learning plan.

Suits All Learning Styles

VDOT University's Virtual Campus offers more than one way to learn. Students can choose the style that suits them best.

- Instructor-led classroom courses
- Self paced online courseware
- Interactive self-study courses
- Extensive online reference library

Learning Resources

You'll have access to a broad online library and e-learning resource center. Search and peruse through an extensive collection of reference materials on both soft-skill and technical topics of interest.

Community

VDOT University's Virtual Campus offers a complete community-based approach to learning.

- More than 7,900 registered users including VDOT's external partners
- Team Rooms to facilitate support collaboration and Communities of Practice
- Instructor-to-Student mentoring

As a division within the Organizational Development Directorate, the **VDOT Learning Center** cultivates best practices both within the Learning Center and throughout all of VDOT via specific programs and services including VDOT University.

The **VDOT University** is the umbrella for all of the educational, developmental, and training opportunities available at VDOT.

Programs within the VDOT University include the Project Management Professional Development, Executive Leadership Preparation, Construction Inspector Trainee, Entry-Level Employee Development (Core Development, Scholars/Interns) and the Maintenance Training Academy (MTA).

VDOT University offers needed training and courses "**just in time**," so managers and employees **can get the resources they need now** rather than having to wait for opportunities to come around.

VDOT University provides training activities that truly improve **on-the-job performance and productivity**.

VDOT University is available to all employees and allows individuals to track their own career path and accomplishments.

VDOT University provides a **common language** to talk about jobs, skills, competencies, and projects.

VDOT University provides **opportunities for collaboration and mentoring** to reinforce learning at all levels.

VDOT University offers the Virtual Campus, providing an **online resource** to house the myriad of training and developmental opportunities VDOT provides in supporting the growth of its employees.
