IMPORTANT MESSAGE

In 2012, VDOT implemented the new Roadway Inventory Management System (RIMS) to replace the old Roadway Data Inventory (RDI) module in HTRIS. This new system is LRS (Linear Referencing System) based and more complex and comprehensive as it deals with the inventory data attributes geo-spatially. Small discrepancies were revealed as a result of the conversion of the data from the old system to the new system. These discrepancies are mostly on the primary and secondary mileages.

To help address this issue and insure consistency of the data, a column called “Adjusted Final Mileage” has been added to some of the tables. These adjustments are smaller in 2015 than 2014 in 83% of these tables, indicating that we are making significant progress to further address our LRS data issues. Please contact Brack Dunn at brack.dunn@vdot.virginia.gov if you need to know more details on this topic or have any other questions regarding any data presented in this book. Thank you.

An error regarding primary centerline and lane miles in Lynchburg, Richmond and Culpeper was corrected and this book re-issued on Oct 19, 2016.
